Reporting on Dry Bulk Processing, Handling and Transport in Asia and Australasia

2020 Editorial and Advertising Data

A POWERFUL MEDIUM TO REACH YOUR TARGET MARKET

Filling a major information gap

Until very recently countries in Asia – including those in the Middle East and Australasia – have not been able to benefit from a single source of current in-depth news and information relating to handling, processing, storage and transport of premium bulk products. All this has now changed with the launch in late 2018 of **AsiaBulkSystems**.

Read by Decision-Makers

Circulated to 25,000 readers - primarily users of bulk processing systems - throughout the Asian region, **AsiaBulkSystems** reaches your target market directly, powerfully and cost-effectively.

The vast majority of its target readership works in the chemical, food, animal feed, pharmaceutical, plastics and high-grade industrial mineral industries, all of which share a need to handle and process valuable and often 'difficult' materials with care, precision and often under carefully monitored hygiene conditions.

Quality Editorial

AsiaBulkSystems attaches high priority to accurate and objective reporting; and to researching and compiling articles. Its experienced editorial team writes with discernment and clarity on a wide range of subjects dealing with bulk handling, processing and transport; and related measurement, control and safety issues.

Dynamic Website + Latest News = Unique Branding

Advertisers in **AsiaBulkSystems** can also benefit from headline exposure on the www.asiabulksystems.com website. Logos, weblinks and banner advertisements are prominently displayed – an unrivalled chance to boost your company's brand. Sponsorship opportunities are also available. The website is updated regularly with latest news items, thereby ensuring high levels of regular web traffic. (Further details on p4 of this document).

The **AsiaBulkSystems** "Added Bonus" Distribution

Advertisers can maximise their profile in the market by making use of **AsiaBulkSystems**' bonus distribution at major international trade shows throughout the Asian region.

AsiaBulkSystems will be promoted vigorously at these shows – and advertisers can benefit from this level of international exposure.

Print Advertisement at Top of Front Cover

In the top right-hand corner of the Front Cover of every issue of *AsiaBulkSystems* we are able to make available a prime position for a Semi-display Classified Advertisement measuring no more than 60mm high x 110mm wide (see page 3).

This eye-catching advertisement position will be popular for announcing a company's presence at an important trade show, for promoting a new product, for bringing a company's website to the attention to our readers, or for referring to a larger Display Advertisement or an Editorial Feature appearing in the same issue of *AsiaBulkSystems*.

The rate for this sought-after position is \$1712. Since *AsiaBulkSystems* is published four times annually, there are only four opportunities during 2020 to secure this key promotional position. To avoid disappointment, early booking is strongly recommended.

***AsiaBulkSystems* has a well-established sister publication, *EuroBulkSystems*, which was launched in 2008 and is published six times a year. It is widely recognised as Europe's foremost information source on all subjects relating to handling, processing, storage and transport of premium bulk products. A digital version can be viewed at www.eurobulksystems.com.**

This website provides full media information about *EuroBulkSystems*. There is also an online newsletter, *EBS News* – which is updated weekly – reporting latest European industry developments.
